## IT HAPPENS - IN RØDVIK STEVNS

---

Many of us have searched for the perfect spot for Windsurfing, Surfing, Stand Up Paddling, Foiling, Wingfoil, and Kite on Zealand. A place that resembles the well-known spots along Jutland's West Coast - but which is significantly closer to Copenhagen.

Rødvig Stevns is such a place. One of the only spots on Zealand, that has the unique conditions necessary for all six board sports disciplines. Locals call the area a 'hidden gem'. In fact, it is a 'forgotten gem', which is now being reinvented, dusted off, and rebranded as LimeLight.

Stevns Municipality, Stevns Business Council, Verdensarv Stevns (World Heritage Stevns) and others, as well as local board sports enthusiasts, want to re-establish Stevns on the land, sea, and surf map and fill the area with happy board sports enthusiast.

The establishment of Stevns Klint as a UNESCO World Heritage Site has created a solid foundation for a completely unique development of Stevns. LimeLight BoardSport Club will help ensure this development. Just as it has happened in Hvide Sande and Klitmøller, among others.

## LIMELIGHT BOARDSPORT CLUB

On November 11, 2019, we established the association LimeLight BoardSport Club.

The purpose of the club is to promote Windsurfing, Surfing, SUP, Foiling, Wingfoil, Kite and BoardSport as a whole. We want to integrate the sport into the local community in a positive way. The club will arrange races, tours, lectures, classes, and other events.

Club's community and social life will be the channel through which we will promote and strengthen the water sports environment, locally as well as in Denmark.

LimeLight BoardSport Club is the first association that brings together all BoardSport disciplines in one cross-disciplinary collaboration. Quite simply, to create the most solid foundation for development, but also to promote BoardSport as a whole.

LimeLight BoardSport Club is a local association - but also a global destination. We want to place Rødvig Stevns on the surfing map and attract local, regional, national and global BoardSport enthusiasts and interested parties. Our resources are based on volunteering work driven by passion.

## EQUIPMENT

---

Limelight BoardSport Club has ambitious plans for the available equipment in the coming seasons. The purpose of the club is, as previously mentioned, to promote Windsurfing, Surfing, SUP, Foiling, Wingfoil, Kite & BoardSport as a whole. In the coming seasons, we will focus on Windsurfing, Surfing, SUP and Foiling.

We have an equipment budget of DKK 500,000, and we have decided to spend 80% of it in 2021 with the following distribution: Wetsuits, shoes, vests and other clothing - 10%, Windsurf - 30%, Surf - 20% and SUP - 40%

In addition, we will continuously apply for sponsorships, funds and other pools for any special projects.

Of the above, about 80% is used for equipment for beginners and experienced. The remaining 20% is targeted at the purchase of trained/elite equipment which is primarily made available to active board members and active instructors as 'payment' for their efforts and to begin the development of future elite and competitive practitioners. We have chosen this model over hourly pay, as it provides the greatest value for the association. The equipment can also be sold at the end of the season to the members, so that the club's selection is always kept up-to-date. All members will, thus, have a chance to buy used trained/elite equipment at very reasonable prices.

Active board members, active instructors, and the association's members can also purchase equipment for their own use and at their own expense on the association's procurement agreements (discounts and terms depend on the procurement agreements we are able to negotiate).

## LIMELIGHT CLUBHOUSE

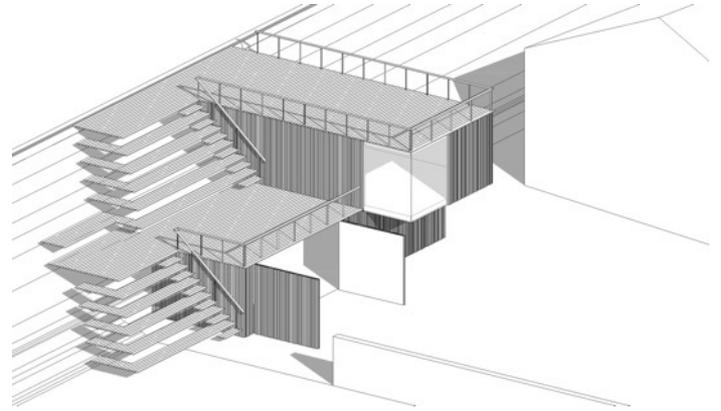

We have a dream location in Rødvig Stevns Harbor - thanks to Rødvig Fishing Harbor.

In July 2020, we placed, and filled, an equipment container with school equipment sponsored by Arne Pedersen Snedkermester A/S. The next step is to expand the equipment container with another 40-foot container, for additional depth, so we get more capacity. On the same occasion, we cast a foundation and align the containers. The idea is that a club room, consisting of two 20-foot containers, later will be placed perpendicular to, and on the top of, the equipment containers.

Limelight ClubHouse will offer spectator seats for BoardSport enthusiasts and invite locals and tourists to join the community. This is solved by making floating stairs down the slope, where planting is maintained between the steps. The overall design provides unique opportunities to look over the water for the Conference & Hotel Klinten guests, the association's members, as well as locals and tourists. The existing stairway to the beach from Conference & Hotel Klinten will be integrated into the solution, hence recreating a larger part of the slope.

The clubhouse is inspired by the 'bridge' of a ship and has a look that is maritime and industrial at the same time. The cladding is in burnt recycled wood. The integration with the slope and the wooden cladding makes the four containers that makes up Limelight Club disappear into the landscape.

The overall solution can be realized with a reasonable budget and the association already has a healthy economy. The project is approved by Rødvig Fishing Harbor and Conference & Hotel Klinten. The next phase is to apply for funding, and we expect this to happen in 2022.

## SOCIAL MEDIA & COMMUNICATION

---

LimeLight Club is the name of our association, officially called LimeLight BoardSport Club. Brainstorming around branding, the words 'Lime' and 'Light' were included as first priorities to create a relationship to the uniqueness of the area. To ensure an international environment, the English terms 'Lime' and 'Light' are used - LimeLight!

**Logo** | The logo was designed by the local Surfer, Matilde Hansen and the rendering was done and sponsored by Haandgemaeng.

**Website** | The website address is [LimeLightClub.dk](http://LimeLightClub.dk). The website is continuously developed and contains all the relevant information about the association.

**Facebook** | For general information we use the page LimeLight BoardSport Club. The group LimeLight Club Members is used for member information and finally we use Messenger Chat Groups on the board and the individual committees and more.

**Instagram** | Our Instagram profile is [LimeLightBoardSportClub](https://www.instagram.com/LimeLightBoardSportClub) and it's for everyone.

**Communication** | LimeLight BoardSport Club has the interest of the media and we work professionally and purposefully with media management. The Chairman and Vice-Chairman may speak to the media.

## COOPERATION & ECONOMY

---

In 2020/2021, we raised more than kr. 500,000 in funds. And there are several positive expressions of interest of financial support for the LimeLight BoardSport Club.

There is already a solid membership database, and our goal is to reach 100 members by the end of 2021, 250 members by the end of 2022 and 500 members within five years.

The association is based on voluntary work and a locally based board has been established with interests within all BoardSports disciplines, but also with different professional skills so we ensure the professional development of the association.

We are registered in the Danish Sailing Union and the Danish Surf & Rafting Association as well as DGI. We are a registered association in Stevns Municipality and have CVR number 41018593.

We have set up a Klubmodul (IT-platform) as our system for handling members, and thus, all practical matters are in place as the membership of the Danish Sailing Union includes liability insurance and more. We also have a board liability insurance and insurance on our equipment.

## SPONSOR PACKAGES 2021

---

Our sponsorship program is divided into four main areas:

**Funds** | Sponsors who gain and add value by supporting the LimeLight BoardSport Club.

**Business Sponsor** | Sponsors who gain business value by sponsoring the LimeLight BoardSport Club.

**Private Sponsor** | Sponsors who privately want to sponsor the initiative.

**Private Member** | Members who privately want to sponsor the initiative and pay an increased membership fee or be passive.

The program aims at long-term relationships and we place great emphasis on sponsorships adding value for all parties. At the end of 2020, we have gathered sponsors who have donated kr. 522,525. In addition to this, we have received kr. 260,000 in direct or indirect support - either in the form of payments of physical items and/or resources.

Our sponsors are not only sponsors of an association, but also of a movement that helps to develop Stevns.
